

# DOLLARS AND \$ENSE

## *Financial Fluency for Healthcare Professionals*

In today's rapidly evolving healthcare landscape, marked by financial uncertainty and ongoing transformation, a strong understanding of healthcare finance is essential for all healthcare professionals. This full-day course provides foundational knowledge of financial principles through the lens of Baystate Health, empowering participants to make informed decisions that support both patient care and organizational sustainability. By enhancing financial literacy, healthcare professionals can better navigate change, contribute to system improvement, and advocate effectively within an increasingly complex healthcare environment.

## Programming
